

August 20, 2007

Dear Friends:

Toni and I are into our last month here at the Montage in Laguna Beach. It has been great! We are both in wonderful spirits. If I were in better shape healthwise, I would be perfect. I have fallen three times – once I hurt my thumb, but nothing serious to worry about. Thank God!

The Schorrs and the Wagners were here for a few days. Toni took them to Catalina Island on a boat trip for the day while I stayed back at the Montage and had a manicure and pedicure. I don't travel much anymore; in fact, not at all. I don't go out much due to eating. It is much easier for me to stay in. I felt bad last Thursday due to some new medication I was taking. As soon as Dr. Hirschberg had me stop taking that medicine, I immediately felt better.

I continue with my exercise routine and can't complain since I'm still getting around walking and talking. Thank God!

Toni joins me in sending our love to you all.

Chuck

P.S. In my last update, I provided the new mailing address for the Peebler PSP Research Foundation (74-923 Highway 111 – PMB 226, Indian Wells, CA 92210). I should have also mentioned that our personal mailing address is being changed to our desert address, which is 47-200 W. Eldorado Drive, Indian Wells, CA 92210 – phone: 760-773-0303. Thanks for making a note and updating our information in your book.
